

## ISO 9001/2016

Continuous quality of our ropes is ensured by the application of European norm EN ISO 9001/2016. The whole production process runs under this norm.

## CE Certificates

We do understand the commitment towards user safety very seriously. That is why we have chosen one of the strictest certifying laboratories in the world accredited by UIAA. It is SZU Jablonec (CE 1015) in Czech Republic.

## UIAA

The UIAA label on a piece of mountaineering or climbing equipment attests it to be of the highest international standards for safety having met the requirements of the relevant UIAA standard.

UIAA Rope Certificates:

Bond 7,9, Gill 8,3, Ace 9,0, Evo 9,3, Next II 9,6 , Raasta 10,2, Jump 10,5, Titan 11
